

UCSF Guidelines for Green Meetings & Events

Help accomplish the UCSF Office of Sustainability and Zero Waste Goals

Food

- Select a green caterer, look for the green leaf icon on the UCSF America To Go/Bear Buy website
- Serve buffet style on platters, no boxed meals or wrapped sandwiches
- Provide water and beverages in reusable dispensers, no single serve bottles
- Select foods and beverages that are local, organic or fair trade. Whenever possible, offer vegetarian meals
- Serve chips, pretzels and side dishes in a bowl for self service, no single packaged items
- Serve condiments in bulk containers (sugar, salt, creamer, ketchup, jelly, etc.)
- Event organizer/caterer provides information about the green aspects of the event to participants
- Consider ordering fewer portions than expected attendance to account for no-shows

Dishware & Tableware

- Request reusable dishware, or BPI* certified compostable utensils, paper plates and cups
- Wood or bamboo chopsticks, cutlery, toothpicks (no plastic tips)
- Encourage participants to bring their own reusable mug and water containers
- Avoid plastic coffee stirrers, straws and toothpicks; or use wood (compostable)

**Biodegradable Products Institute/BPI certified compostable dishware, cutlery and cups (clearly labeled compostable)*

Communication Materials

- Electronic communication for registration, announcements and resource materials
- Post meeting agenda and announcements on a white board or screen, rather than individual handouts
 - Unavoidable printing is double sided on chlorine-free, 50% or 100% post-consumer recycled content (PCW) paper
 - Reusable dry-erase boards, blackboards or electronic projectors are used instead of paper flip charts
 - Paper name tags with reusable holders are used instead of single use name tag stickers

Trash – Recycling - Compost Containers

- Order containers and signage from CLS/Facilities: campusliveservices.ucsf.edu/facilities → Submit Service Request → Maximo.
- Announce at event start or prior to serving the meal, "please be sure to place your discards in the appropriate container for composting, recycling or trash." and/or include this information on a PowerPoint slide

Decorations & Give Away Items

- Purchase durable decorations, signs and props that can be reused
- Minimize giveaways; choose only consumable items or green-themed giveaways
- Select reusable centerpieces, and/or offer centerpieces as prizes
- No balloons or plastic streamers

Sustainability Transportation

- Provide information to participants on public transportation and shuttle services
- Use UCSF transportation options: <http://campusliveservices.ucsf.edu/transportation/services/shuttles>
- Offer ability to purchase carbon offsets for plane travel (via the entry fee or another easy method)

Left Over Food

- Inform attendees they can bring take out containers for leftover food
- UCSF Google Group for Free Food: <https://groups.google.com/forum/#!forum/ucsf-free-food>
- Arrange in advance to donate leftover food
 - Food Runners: 415-929-1866 <http://www.foodrunners.org/>
 - Delancey Street Foundation: 415-957-9800 <http://www.delanceystreetfoundation.org/>
