UACS Charter Update

The overarching charge of the committee for the upcoming 2020-2022 appointment cycle is to support and help implement goals and strategies for UCSF to become national leaders in Health and Sustainability by 2025.

In addition, the committee will provide guidance and support to:

- Annually examine UCSF's effect on the environment from a comprehensive perspective
- Evaluate existing UCSF policies, procedures and/or programs that affect the environment
- Serve as a coordinating body for groups or individuals concerned with sustainability issues at UCSF
- Support achieving the Carbon Neutrality goal by 2025

Each member shall serve as an example and advocate to the UCSF community sustainable behavior changes in the following areas:

- Efficiently use and conserve water, energy and other resources
- Efficient use of alternative transportation options
- Utilize environmentally responsible purchasing practices promote healthy indoor air quality systems
- Minimize solid waste production
- Incorporate lifecycle analysis into sustainable financial planning and budget goals
- Integrate environmental literacy into research, education and communication
- Implement resource-efficient site planning, design and building principles
- Reduce the use of hazardous materials and toxins where possible
- Conduct/promote sustainability activities among your departments and operations in an integrated, inter-dependent manner
