GCLC CNI/GFI Fellows

CNI

- Nicole Jackman, MD – reducing anesthesia gases/emissions
- Alex Schrobenhauser-Clonan, MD – Behavioral aspects of climate change

GFI

- Mathew Spinelli, MD – Impact of Food Insecurity on HIV Tx
- J. Daniel Kelly, Med Student – Food Insecurity, Poor Nutrition and other risk factors of ebola-infected patients 14-15
- Mike Reid, MD – Diabetes, Diet, and Microbial Translocation in HIV infected women

Faculty Climate Champion

- Arianne Teherani, PhD, focusing on educating faculty on climate change and health to incorporate into curriculum
Uinformative copy is removed.
Cool Campus Challenge

10 CAMPUSES.
10 YEARS. 1 GOAL.
CARBON NEUTRAL
BY 2025.

SIGN UP

FROM OCTOBER 6 TO DECEMBER 10, all UC faculty, staff and students are invited to participate in the Cool Campus Challenge — a friendly, fun competition aimed at reducing UC’s carbon footprint and creating a culture of sustainability across campuses.
Faculty Climate Action Champion

Arianne Teherani, PhD

- Professor, Office of Research and Development for Medical Education, SOM
- Selected as Faculty Climate Champion
- Awarded $25,000 to embed sustainability in professional school curriculum
Any student, undergraduate or graduate, in the UC system is invited to submit an application to represent their campus in either the Climate Impact or Climate Solutions competitions. Learn more about the categories of competition and entry details, including submission guidelines.

Deadline: April 10

The systemwide event will bring students from all 10 campuses to Silicon Valley to present their climate science and carbon reduction research in three-minute pitches and posters at a live competition before a panel of esteemed judges and guests for a chance to win cash prizes.

Join us: May 23
