FAQs

Where can you go to identify additional medication drop-off bins?

Visit [takebackdrugs.org](http://takebackdrugs.org) to identify medication drop-off bins located throughout California.

How should you dispose of your medications?

Solid medications should be removed from their containers and consolidated to a clear, plastic zipper bag. Keep liquids and creams in the original packaging.

What medications can be disposed of in the medication drop-off bins?

Medications that can be dropped off include: prescription medications, over-the-counter medications, medicated creams and liquids, and pet medications.

Note: only some sites accept scheduled II-V controlled medications. Please check with the site or visit [takebackdrugs.org](http://takebackdrugs.org) to determine whether the site accepts controlled medications.

Where can you dispose of used sharps?

Visit [safeneedledisposal.org](http://safeneedledisposal.org) to identify sharps disposal sites located throughout California.

How should you dispose of used sharps?

Place the sharps in a strong, plastic container. Sharps disposal containers can be picked up at select pharmacies. Visit [safeneedledisposal.org](http://safeneedledisposal.org) to identify sites distributing sharps disposal containers.

How can you mail-back your medications?

Visit [med-project.org](http://med-project.org) or call (844) 633-7765 to request a Mail-Back Package.
